Versatile Information Systems graduate with strong technical foundations in Full-Stack Web Development and Data Analytics. Proficient in building scalable web applications using React.js, TypeScript, Node.js, and Next.js, alongside conducting end-to-end data processing, SQL query optimization, and Business Intelligence dashboarding. Experienced in designing relational database schemas, integrating secure APIs (Midtrans), and translating business requirements into high-performing, data-driven technical solutions.

CORE SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, PHP, SQL (MySQL, BigQuery), HTML5, CSS3
- **Frameworks & Libraries:** React.js, Next.js, Express.js, Node.js, Bootstrap, Tailwind CSS
- **Data Analysis:** SQL (MySQL, BigQuery), Python (Data Cleaning & Manipulation), Microsoft Excel (Pivot Tables, Power Query, DAX, Advanced Formulas).
- **Data Visualization:** Looker Studio, Dashboarding, Data Storytelling.
- **Tools & Databases:** MySQL, MongoDB, RESTful APIs, Git/GitHub, Midtrans API, JWT Authentication, Postman.
- **Core Competencies:** Agile Methodology, SDLC, Database Schema Design, Responsive Web Design, Problem Solving

PROFESSIONAL EXPERIENCE

Data & Administrator **2024 - 2025**
Lunar Kitchen

- **Managed a database of 680+ transactions with 100% data integrity**, performing regular inventory audits and logistics tracking to eliminate fulfillment errors.
- **Synthesized qualitative feedback from 630+ customer reviews** to identify operational trends, maintaining a consistent 5.0/5.0 satisfaction rating through data-driven quality control.
- **Monitored communication KPIs to ensure a 100% response rate**, utilizing rapid data-driven decision-making to optimize customer engagement and service efficiency in high-pressure environments.

TECHNICAL PROJECTS

Full-Stack Realtime Point of Sale (POS) App **October 2026**

- **Developed** a production-ready, real-time Point of Sale (POS) application for cafes and restaurants using **Next.js 15**, **React 19**, and **TypeScript**.
- **Implemented** real-time data synchronization and backend operations using **Supabase** (**PostgreSQL**) for seamless order and inventory tracking.
- Integrated **Midtrans Payment Gateway** to handle secure, automated digital transactions and checkout workflows.
- Built dynamic user interfaces with **Tailwind CSS** and **Shadcn UI**, managing complex application states using **Tanstack React Query** and **Zustand**.

Data Analyst Bootcamp (Python & SQL) **July 2026**

- **Mastered** database design concepts and constructed complex **SQL queries (Joins, Subqueries, CTEs)** using **Google BigQuery**.
- **Developed** Python scripts for automated data processing and dataset manipulation.
- **Build** interactive dashboards in Looker Studio to support data-driven Business Intelligence decisions.

Data Analyst Bootcamp (Excel) **July 2026**

- **Applied** advanced data cleaning and preparation techniques using Power Query on large-scale datasets.
- **Utilized** Power Pivot and DAX to extract complex business insights from raw data.
- **Authored** Data Storytelling reports to effectively present analytical findings to stakeholders.

Frontend Developer | Gundam Verse **July 2025**

- **Developed** a responsive Single Page Application (SPA) using React.js and Tailwind CSS.
- **Integrated** external RESTful APIs to fetch and display dynamic data efficiently.
- **Implemented** real-time search and filtering features for seamless user navigation.
- **Optimized** website performance and mobile responsiveness, deployed via Vercel.

Fullstack Developer | Acara Tiket **July 2025**

- **Architected** comprehensive relational database schemas (SQL/MySQL) to manage complex transactional data, including event logs and payment statuses.
- Built a full-stack event ticketing platform with CRUD functionality using React, TypeScript, Node.js (Express), and MongoDB.
- **Integrated** Midtrans Snap to handle online payments securely, including transaction status updates and redirect handling.

EDUCATION

Gunadarma University (2020 – 2024)
Bachelor Degree in Information Systems – GPA 3.49/4.00 | Predicate Very Satisfactory

CERTIFICATION

Bootcamp Data Analyst with Excel (Bacth 23)
DQLab **July 2026**
Bootcamp Data Analyst with SQL & Python in Google Platform (Bacth 23)
DQLab **July 2026**
Fullstack Next JS: Realtime Point of Sale Apps
WPUCourse **August 2025**
MERN Stack Course
WPUCourse **June 2025**
Junior Web Programmer
Badan Nasional Sertifikasi Profesi **June 2024**
Basic Web Application Development
