Dafa Raihan Ari Wibowo

Jakarta, Indonesia | +62-888-1532-960 | dafaraihanariwibowo@gmail.com | linkedin.com/in/dafaraihan

Detail-oriented **Junior Web Developer** and Information Systems graduate with a strong technical foundation in **Full-stack Development**. Proficient in building scalable web applications using **React.js, TypeScript, and Node.js**. Experienced in designing relational databases and integrating secure third-party APIs (Midtrans). Proven ability to translate complex business requirements into functional, user-centric software solutions while maintaining high standards of code quality and operational efficiency.

EDUCATION

Gunadarma University (2020 – 2024)
Bachelor Degree in Information Systems – GPA 3.49/4.00 | Predicate Very Satisfactory

PROJECT EXPERIENCE

Frontend Developer | Gundam Verse **December 2025**

- **Developed** a responsive Single Page Application (SPA) using **React.js** and **Tailwind CSS**.
- **Integrated** external RESTful APIs to fetch and display dynamic data efficiently.
- **Implemented** real-time search and filtering features for seamless user navigation.
- **Optimized** website performance and mobile responsiveness, deployed via **Vercel**.

Fullstack Developer | Acara Tiket **July 2025**

- Developed a full-stack event ticketing platform with CRUD functionality for managing events, tickets, orders, and payment transactions.
- Built the front-end using **React** and **TypeScript**, delivering a dynamic and responsive user interface for both users and administrators.
- Integrated **Midtrans Snap** to handle online payments securely, including transaction status updates and redirect handling.
- Designed a seamless and user-friendly ticket ordering flow, including detailed event pages, order summaries, and payment instructions.
- Implemented the backend using **Node.js (Express)** and **MongoDB**, providing RESTful APIs for ticket management, order processing, and payment status updates.
- Used **Postman** for **API** development and testing, ensuring reliable communication between frontend and backend.

Fullstack Developer | Website Wedding Jewepe **July 2024**

- Developed Jewepe, a wedding website that allows users to browse packages, make reservations, and manage bookings through an integrated admin panel using CRUD.
- Structured the project using the CodeIgniter framework, organizing files into controllers, models, and views for maintainable and scalable development.
- Built the interface with **PHP, HTML, and Bootstrap,** ensuring a dynamic, responsive, and elegant user experience.
- Implemented **MySQL** for relational database management.

Fullstack Developer | Lunar Kitchen – Online Food Order Website **August 2023**

- Developed a responsive food ordering website for Lunar Kitchen using **HTML**, **CSS**, and **JavaScript**, styled with Bootstrap for consistent design and mobile responsiveness.
- Created a user-friendly order form for customers to select menu items and submit their personal information,

such as name, address, and contact details.

- Designed a dynamic menu section that displays available food items clearly, allowing customers to browse and choose with ease.
- Implemented backend processing with **PHP** and **MySQL** to store customer orders and personal information securely.
- Integrated WhatsApp **API** using **JavaScript** to automatically send submitted orders and customer details to the admin's WhatsApp for real-time confirmation and communication.

EXPERIENCE

Administrator **2022 - 2024**
Lunar Kitchen

- **Maintained** a perfect **5.0/5.0 customer satisfaction rating** (630+ reviews) by implementing rigorous quality control and efficient problem-solving protocols.
- **Achieved** a 100% Chat Performance rate through rapid response times and effective communication, demonstrating reliability in high-pressure environments.
- Managed end-to-end operations for 380+ orders, including inventory tracking, order processing, and logistics coordination, ensuring zero errors in fulfillment.

CERTIFICATION AND COURSE

Fullstack Next JS: Realtime Point Of Sale Apps
WPUCourse **August 2025**
MERN Stack Course
WPUCourse **June 2025**
Junior Web Programmer
Badan Nasional Sertifikasi Profesi **June 2024**
Basic Web Application Development
Gunadarma University **June 2024**
Machine Learning & AI
Google Developer Student Clubs Gunadarma **December 2021**

SKILLS

Technical Skills

- **Languages**: JavaScript (ES6+), TypeScript, PHP, SQL, HTML5, CSS3.
- **Frameworks/Libraries**: React.js, Express.js, Node.js, Bootstrap, Tailwind CSS.
- **Tools**: Git/GitHub, RESTful APIs, JWT Authentication, Midtrans API, Postman.
- **Database**: MySQL (Relational Schema Design), MongoDB.
- **Core Competencies:** Agile Methodology, SDLC, Responsive Web Design, Problem Solving.
